

Baroque Violin Favourites includes some of the best known compositions and movements from the century that marked the height of Baroque musical achievement. Historically the collection ranges from Corelli and Vivaldi to Bach, Handel and Tartini. Bin Huang, one of the most gifted young violinists to come from China, has triumphed in international competitions and established herself in the world as a leading player of the younger generation. At the age of fourteen she tied with Maxim Vengerov for First Prize in the Junior Wieniawski International Violin Competition in Lublin and won both the Paganini International Violin Competition in Genoa in 1994 and the Munich International Music Competition in Germany in 1999.
