

GOLDBERG VARIATIONS

Composed by **Johann Sebastian Bach** (1741)

Recomposed by **Peter Navarro-Alonso** (2013)

ALPHA

Bolette Roed, recorders

Peter Navarro-Alonso, saxophones

David Hildebrandt, percussion

Danish composer Peter Navarro-Alonso's composition is a note-by-note reinvention of the original *Goldberg Variations* by J.S. Bach. Thus Alpha's innovative performance adds no additional notes in comparison to the original. It is merely through the very creative and extreme orchestration that the new composition gains its own life.
